

Applied Longitudinal Data Workshop Summary and Participant Feedback Report

February 8, 2017

Fahmida Yeasmin and Karen A Kopciuk

University of Calgary

Executive Summary

The workshop took place on December 3, 2016 in Theatre 3 of the Health Sciences Centre at the University of Calgary. The workshop presenter was Professor Garrett Fitzmaurice from the Department of Biostatistics, Harvard School of Public Health. The workshop included these broad topics: Introduction and Overview, Basic Concepts of Longitudinal Data, Review of Linear Mixed Effect Models, More Flexible Linear Mixed Effects Models: Smoothing and Semiparametric Regression and Extensions of Generalized Linear Models to Longitudinal Data (see appended Schedule).

We gratefully acknowledge the support from our generous funders: Office of the Vice-President (Research), University of Calgary; O'Brien Institute for Public Health, University of Calgary; Department of Mathematics and Statistics, University of Calgary; Canadian Statistical Sciences Institute; and the Pacific Institute for the Mathematical Sciences; without their generous support it would not have been possible to present this workshop.
