

Creating an Alberta Community-based Research Strategy for the HIV Sector

Presentation to Campus Alberta, May 13, 2015

Brent Oliver PhD

- Assistant Professor, Department of Social Work & Disability Studies, Mount Royal University

Floyd Visser

- Executive Director, The SHARP Foundation

Deliverables

1. Revising and updating strategic priorities for HIV community-based research in Alberta
2. Facilitating knowledge translation among academics and public health practitioners
3. Developing increased capacity for HIV community-based research in Alberta
4. Developing teams to support future grant development.

SETTING THE AGENDA

Alberta Research Round-up 2.0

March 11, 2015

- 15 participants representing Mount Royal University, University of Alberta, University of Calgary, HIV Edmonton, HIV Community Link, Alberta Health Services, Calgary Sexual Health Centre, SHARP Foundation and Calgary Homeless Foundation; also included Dalhousie University

Gaps and Needs

- Mapped community-based HIV research work that is currently happening in Alberta
- Need for future work on:
 - Priority Issues
 - Partnerships
 - Capacity Building
 - GIPA/MIPA Principles (Greater/Meaningful Inclusion of persons living with AIDS/HIV)

BUILDING A PLATFORM FOR COLLABORATION

- Increase Communication
- Enhance Partnerships
- Create a Framework to Engage Peer Research Associates
- Increase Engagement
- Follow Up Meetings in June and September

Thank You!
