Outcomes Research in Diabetes

Diabetes in Pregnancy Summit

Catherine Chan, Rose Yeung, Padma Kaul, Naomi
Popeski

University of Alberta & Diabetes, Obesity & Nutrition
Strategic Clinical Network™, AHS

Partners

*Cardiovascular and Stroke SCN
Primary Health Care Integration Network
Maternal, Newborn, Child and Youth SCN*

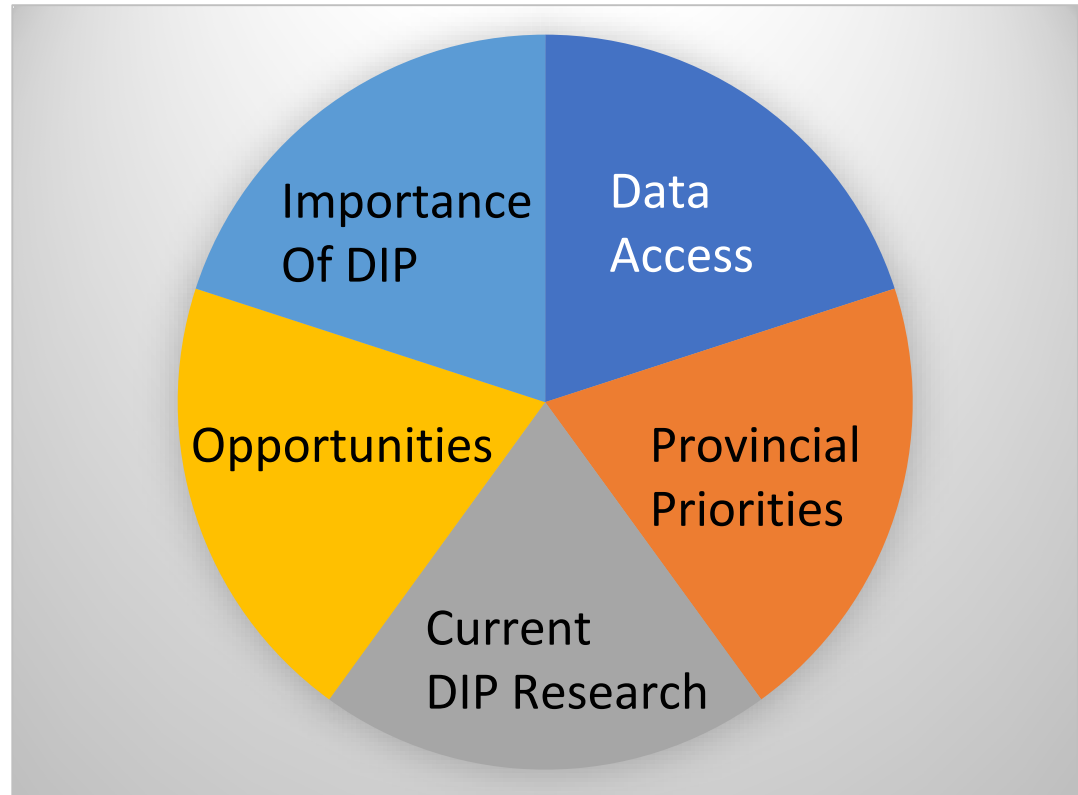

Objectives

1. Bring Alberta-based researchers and clinicians together to share current research activities in DIP
2. Discuss research challenges related to diabetes in pregnancy in Alberta.
3. Pursue opportunities for future research and collaboration

Original Research

Engaging Patients and Clinicians in Establishing Research Priorities for Gestational Diabetes Mellitus

Sandra E. Rees MPH^a, Rati Chadha MD^b, Lois E. Donovan MD^c, Adrienne L.T. Guitard^{d,1},
Sudha Koppula MD^e, Andreas Laupacis MD^{f,g}, Sara Simpson FRSA^{d,1}, Jeffrey A. Johnson PhD^{a,*}

Preventing GDM

- Exercise interventions
- Addressing other risk factors eg ACEs

Screening for GDM

- Simpler protocols
- Technology eg. CGM

Post-partum F/U

- Algorithms
- Patient navigation

Evaluation

- 9 out of 11 participants responding reported that they met an individual that they could collaborate with

Most valuable aspects of the Summit

- Networking
- Understanding research climate in Alberta
- Access to data/registry for research
- Diversity of talks
