

The O'Brien Institute for Public Health &  
the Department of Community Health Sciences present:

## Connect Care from a Data and Analytics Perspective

**Speaker: Dr. Stafford Dean**

**Friday, November 23, 2018 - 12:00 to 12:50 p.m.  
G500 - Health Sciences Centre, 3330 Hospital Dr NW**

This seminar will discuss how AHS analytics is strategically thinking about the data and analytics future with Connect Care, and requirements from the Connect Care perspective to enable data access and analytics, both in-system and out-of-system.

Stafford Dean is the Chief Analytics Officer at Alberta Health Services. He has been using administrative and clinical data to support decision making for over 25 years in Alberta's health system. Stafford has also had data and analytic roles at the Alberta Ministry of Health, Calgary Health Region, and the Health Quality Council of Alberta. The analytics role enables decision making by providing timely, relevant data and reporting services.

Stafford's research interests include health system planning models and clinical analytics to support continuous quality improvement. Stafford has a PhD in Health Research, a master's degree in Economics and a bachelor's degree in Actuarial Science.

### **Objectives:**

1. Understand AHS plan on data and analytics with respect to Connect Care
2. Understand the strategic data acquisition plan for AHS in Connect Care
3. General understanding of AHS strategic data and analytics plan

**This event is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada. This seminar is also available via an online**

**AdobeConnect session:** To attend the seminar from another location via your computer, click on this link:
